

Atterbury System
Clothes

"THAT is according to your measurements." This is often the merchant tailor's excuse for an improperly fitting garment. It is no art to fit your measurements; it is an art, however, to make one appear a perfect form when one is not. You are assured of all-round perfection in Atterbury System clothes. They are merchant-tailored and ready to slip on. No merchant tailor can make any better, and few indeed can make as good. Those who can would have to ask nearly double the price.

If you are accustomed to having your clothes made by a merchant tailor and wish to save money, look at least as good, and desire to avoid loss of time and vexatious annoyances, allow us to slip an Atterbury System garment or two on you, when you will say to yourself that you wish you had worn these clothes long before.

Atterbury System Suits, \$20 to \$35
Atterbury System Overcoats, \$20 to \$40
Look for the Label in the Coat.

COMMITTEE'S REPORT IS IN THE NATURE OF A STRADDLE

Says the Waterworks Report Is Correct and Then Proceeds to Prove All That Wm. Glasmann Has Contended—Admits the Auditor's Official Records Show an Overdraft of \$230.60 June 30.

Brewer's water committee straddles the water question. It reports that the water report was correct and correct and there was \$9,894.34 cash on hand and then says that the auditor's report of the same report shows an overdraft of \$230.66 and also proves Mr. Glasmann was right when he said that the warrant for \$10,125 was drawn by the auditor and approved by the city council and mayor.

It says the waterworks made a net earning of \$21,233.20 by counting \$2,079.60 five hydrant rent due from the city and \$4,833.21 uncollected water rent—both as an earning—and that all of the earnings with other money had been expended on the system.

That is what Mr. Glasmann said was done. He said there was not a dollar's profit over and above the expenditures.

The committee says that the warrant for \$10,125, while issued and approved on June 28, was not paid until July 2nd, but it fails to say it was a liability.

The committee does not say what became of the \$10,144 surplus special taxes of last year and does not say anything about the \$3,080 paid for the tool shed.

It is presumed the committee agrees that Mr. Glasmann's statement was right on those points. If so, then all Mr. Glasmann has claimed is proven by the committee, though the committee seems to make the admission reluctantly and in a negative form.

In order to make the matter more binding and to leave no doubt on the matter, Mr. Glasmann is ready to pay the Martha Society \$500, as stated in this paper a few days ago, in which he offers \$500 on three different propositions.

The report of the committee is as follows:

Report of Committee.
Ogden, Utah, Oct. 27, 1909.
To the Honorable Mayor and Members of the City Council, Ogden City, Utah:

We, the committee, appointed by Mayor A. L. Brewer, and your honorable body to investigate the financial statements of the waterworks department from January 1st to June 30, 1909, beg leave to report as follows:

We have examined and checked the general balance sheet for six months ending June 30th, 1909.

Statement of gross earnings and operating expenses for six months ending June 30, 1909.

The statement of gross earnings and operating expenses was taken up, item by item and checked with the ledger of the waterworks department, showing items enumerated to agree with the ledger. The committee also finds the net earnings, amounting to \$21,233.20 as shown by the report, and that this amount with other receipts less accounts, good but uncollected, has been expended in improvements and extensions of the waterworks department and not used for running expenses.

We also find the following approval in the general cash book of the waterworks department:

"This is to certify that I have audited the books of the waterworks department of Ogden City Corporation for the period of January 1st to June 30th, 1909, and find them accurate and correct, and that the cash shows an overdraft of \$230.66 on June 30, 1909."

FLORENCE O. STANFORD.
City Auditor.
"By Wallace Foulger, Assistant Auditor, Sept. 25, 1909."

By warrants outstanding and unpaid \$10,177.04
Less overdraft as per cash book 230.66
Bank balance as shown by pass book 10,223.36
Cash receipts for June, deposited July 1, 524.03

\$10,547.39
We also find cash on hand in the Pingree National Bank June 30, 1909, \$10,023.36, unpaid vouchers on hand, \$863.04, or net cash of \$9,379.32 cash on hand June 30th, deposited in the Pingree National Bank July 1st, \$524.03, making a total cash of \$9,903.35, against which warrant No. 260 for \$10,125.00 was issued by the City Auditor June 26th, approved by the City Council June 28th. This warrant, however, was not due, presented or paid until July 2nd.

The earnings and operating expenses of the waterworks department for the six months ending June 30,

FOUR YOUNG MEN ARE IN TROUBLE

INTENDED TO PLAY A PRACTICAL JOKE.

Now They Are Under Bonds—They Regret an Unforeseen Mishap as Result of Joke.

Four young men of this city, G. T. T. Parr, C. Murphy and L. Packard, are in serious trouble over an attempt at practical joking. They are under bonds for a hearing on the charge of a felony.

The boys say that on the evening of October 18, to have a little fun with a street car, they placed a pile of bridge timbers upon the car track. They supposed, of course, that the motorman would see the timbers before he drove his car upon them, and they would have the fun of watching him remove the obstruction

from the track. But the motorman did not notice the timbers until it was too late, the car was derailed and it is really miraculous that the occupants of the car were not injured. The boys feel now that it was an expensive joke.

Manzan, the great Film remedy, prevents flies by preventing constipation. It is conveniently applied directly to the trouble by means of a small nozzle attached to the tube in which Manzan is put up. Sold by Geo. F. Cave Drug Store.

GEBHARDT MAY BE MANY-TIME MURDERER

New York, Oct. 28.—Pressure by the police, which has already forced from Frederick Gebhardt, alias Otto Mueller, intimations that he may have done away with other wives besides Anna Luther, for whose killing he is now imprisoned at Islip, L. I., was again applied today to the man who is believed by the authorities to have made a business of marrying women and killing them for their money.

The authorities today were working on the theory that at least three more crimes like that which Gebhardt committed at Islip could be traced to him.

In this connection they are investigating a story told them that Gebhardt, under the name of Mueller, had in 1906 induced his boarding mistress in Jamaica, L. I., a Mrs. Mary Kate to sell out her boarding house and

turn the money over to him, as well as make him the beneficiary of her life insurance policy. Three days later she was found dead in Jersey City and there were no signs of Mueller.

COLLEGE WOMEN THEY CLAIM ARE THE BEST

Cincinnati, O., Oct. 28.—The college woman is the better equipped to serve in the home and for the uplift of humanity, according to the consensus of opinion shown in the discussions in the annual convention of the Association of Collegiate Alumnae in session here. This organization is composed entirely of college women from all parts of the country who are graduates from the twenty-four leading women's colleges.

Miss Cary Thomas, president of Bryn Mawr college, chairman of a committee that has taken statistics on college women in the United States, reports that when men and women are educated together there is no greater number of marriages than when the sexes are educated separately; that 778 out of 1,000 college women enjoy excellent health; only eight college women out of 1,000 have ill health; that the health of women improves while in college; that college

women in general have better health than women who don't attend colleges; that college women marry stronger men, and they choose more wisely, and these are men with a little larger incomes, and that one-third of the women have higher salaries on the average than the husbands of women who have never attended college. As to bearing children, Miss Thomas declared college women had 3-6-10 children, while non-college women had 3-5-10, so the college women were in the lead slightly, although they married later in life than women who never attended college.

MYSTERIOUS DEATH OF A WOMAN AND HER CHILD

Chicago, Oct. 28.—Mrs. Charles H. Edgcomb and her four-year-old son, Charles H. Edgcomb, were found dead in bed in their home today by the husband and father. The room where the two lay was filled with gas which had escaped from a jet.

Mr. Edgcomb insists that the jet must have been opened accidentally, but the police hold a contrary opinion and base it on the fact that the apartment was ordinarily lighted with electricity.

Other residents of the building notified the odor of gas yesterday afternoon, but no investigation was made and the discovery of the dead mother and son was not made until Mr. Edgcomb returned to his home today. He declares there was no motive for his wife to kill herself.

POLICEMAN IS KILLED BY A DESPERADO

Spokane, Wash., Oct. 28.—Night Patrolman Alfred B. Waterbury, who was shot by a desperado last night, died early today.

Waterbury had ordered the man to halt. The answer was a pistol bullet that pierced the policeman's groin. Lying on the ground, the wounded man fired four shots at the fleeing assassin, but the man escaped. A heavy overcoat, a pair of overalls and a black mask were found along the thief's trail.

Fred Wright, Prop. of the London Meat Market, 616 24th St., has sold his business. Parties having accounts will please call within the next 30 days and settle all outstanding bills against the London Meat Market. If presented promptly will be paid at once.

Wrights' Store News Friday and Saturday Specials

It surely pays to trade at Wrights'
